Qute[®]

Years of Excellence

Qute is a pioneer in manufacturing uPVC and PVC joinery products, delivering products that seamlessly blend style, durability, and functionality. Established in 2006, with 20 years of trust-driven excellence, we continue to uphold uncompromising quality standards while constantly evolving through innovations & improvising through perfections.

We have always been Certified with Regulatory Standards as ISO for the Management Systems and ISI for the Product. Our dedication to excellence drives us to push the boundaries in every respect to reach the very best for our clients like Larsen & Toubro (L&T), Shapoorji Pallonji and of course the CPWD.

ONE PARTNER - MULTIPLE SOLUTIONS

Qute offers a comprehensive range of joinery and interior solutions under one roof. We ensure hassle-free coordination at every stage of your construction journey. More than just quality products, Qute is a trusted partner that delivers an integrated product portfolio to ensure design consistency, material compatibility, and execution efficiency.

“Architectural Design. Engineered Strength”

Our Supremacy:

Our uPVC windows are crafted to complement contemporary architecture with clean lines, refined proportions, and premium finishes. Beneath their elegant design lies advanced engineering—multi-chamber profiles, reinforced frames, and precision hardware—delivering superior structural strength, insulation, and security. Built to perform across diverse climatic conditions, they offer long-term durability, energy efficiency, and consistent reliability. The result is a window system that balances visual sophistication with uncompromising structural integrity—designed to perform beautifully for years.

Your Benefits

- High Weather Resistance
- Better Insulation
- Sound Reduction
- Maintenance Free
- Durable and Aesthetic
- Structural Stability

Curated Colour Palette:

TYPES OF WINDOW SYSTEMS

CASEMENT WINDOW SYSTEMS

1. CASEMENT WINDOWS / DOORS SYSTEMS
2. CASEMENT WINDOW WITH INTEGRATED GRILL SYSTEMS
3. CASEMENT COMBO WINDOW SYSTEM

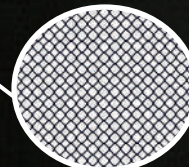

SLIDING WINDOW & DOORS SYSTEMS

1. TWO PANELS / 3 PANELS
2. TWO PANELS & FLYMESH.
3. TWO PANELS & INTEGRATED GRILL..

ALL-IN-ONE COMBO WINDOW SYSTEM

MS Safety Grill

Mesh

1 SYSTEM

- WINDOW
- SAFETY GRILL
- FLYMESH SCREEN

This innovative uPVC window system is engineered to combine multiple functionalities into a single, intelligent solution.

1 SYSTEM - 2 REASONS & 3 PURPOSE TO PICK

- **Outward-Opening uPVC Window** - maximum ventilation
- **MS Safety Grill** - Robust protection that's integrated.
- **Inward-Opening Bug Screen Shutter:** Effective insect & bugs protection with convenient Airflow for ventilation.
- **Cost-Effective Solution** : Reduces overall system cost by up to 30% compared to conventional multiple-window systems, without sacrificing aesthetics & performance.
- **Ideal for Modern Homes & Commercial Projects.** Designed to meet contemporary architectural needs with superior usability, durability and long-term value.

A COMPLETE SYSTEM

Multi-point locking: Superior home security.

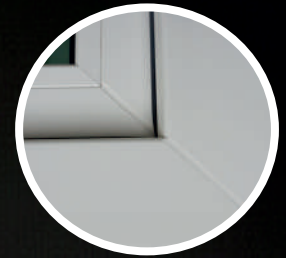

Friction stay: Controlled, safe opening.

uPVC OPENABLE WINDOWS

TPE gaskets: Superior airtight sealing.

Fusion welded joints: 100% leak-proof corners.

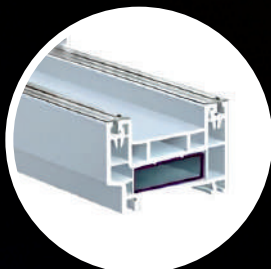

Sliding roller: Effortless, smooth glide.

Steel reinforcement: Maximum structural strength.

uPVC SLIDING WINDOWS

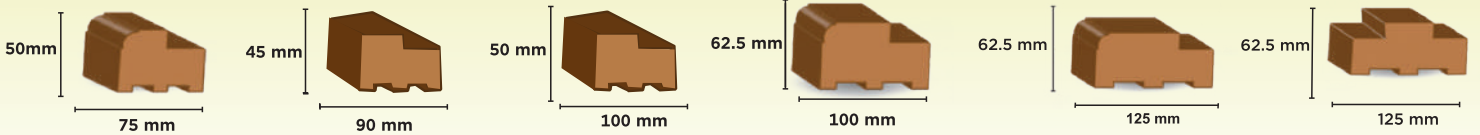

Aluminum Rails: Wear Resistance - Prevents track erosion.

Drain holes: Effective water drainage

THE ORIGINAL WPC DOORS

Door Standard Spec: 25MM / 28MM / 30MM - 0.55D & 0.65D
Possible Custom Spec: 5MM to 50MM & 0.45D to 0.75D

Qute WPC DECORA DOORS

Engineered for Excellence

We Create THE ORIGINAL WPC, which is built for unmatched strength, durability, and reliability, offering superior resistance to moisture, termites, and environmental wear.

Why QUTE'S WPC is The ORIGINAL WPC?

● TAILORED FORMULATION

Each and Every product like Doors, Frames or the Furniture boards, is crafted with Specialized chemical formulations. tailored according to its utility to ensure the optimum performance even to cater the efficiency for diverse applications.

● HIGH SCREW HOLDING CAPACITY

Our WPC doors and frames are built with exceptional screw- holding capacity, ensuring Superior grip, structural integrity, with long-lasting performance. Designed to withstand daily wear and tear, they provide unwavering strength while maintaining elegance and style. As a result, hinges, locks, and handles remains securely fastened, reducing maintenance and enhancing overall durability. Our doors undergo rigorous testing to perform high screw holding capacity, outperforming the market doors and fulfilling the Carpenter's Expectation.

Experience The ORIGINAL WPC Doors & Frames from QUTE to experience the Elegant design, unmatched strength, durability, and reliability.

Qute® WPC DESIGN DOORS

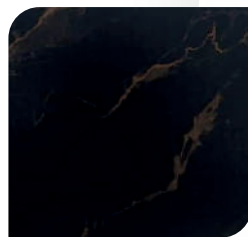

In a world where all houses & commercial Spaces require their Interiors & Kitchens to be elevated with both style and strength, Q-PLAST uPVC Modular Furniture panels emerge as the perfect solution.

Unlike traditional materials that succumb to moisture, termites, and wear, Q-PLAST panels are waterproof, fire-resistant, anti-termite, and corrosion-free - engineered to endure. with a variety of texture, colors, designs and finishes, they seamlessly blend into any interior theme.

QUTE has made Q-PLAST stand apart from market competition by designing it in such a way that even semi-skilled carpenters will be capable enough to attain the utmost quality & aesthetics.

BLOW AWAY THE COMPETITION

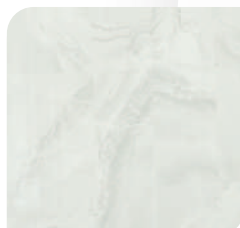

- **QPLAST** is the potential threat to plywood (like how Aluminium Profile was replaced by uPVC Window Profile), due to the following reasons.

Unlike the other alternates of Plywood, uPVC Modular Furniture requires only the panel profile for entire Furnishing entire work. No need for frame, A- Sections and Press Fit Cap. The distributors, Carpenters will enjoy this benefit to reduce their stocking issues.

- **QPLAST** doesn't need any additional work for designing, like laminates or painting or any such post - production work
