uPVC WINDOWS

“Architectural Design. Engineered Strength”

Our Supremacy:

Our uPVC Windows are crafted to complement contemporary architecture with clean lines, refined proportions, and premium finishes. Beneath their elegant design lies advanced engineering — multi-chamber profiles, reinforced frames, and precision hardware — delivering superior structural strength, insulation, and security. Built to Perform across diverse climatic conditions, they offer long-term durability, energy efficiency, and consistent reliability. The result is a window system that balances visual sophistication with uncompromising structural integrity designed to perform beautifully for

- Structural Stability
- High Weather Resistance
- Better Insulation
- Sound Reduction
- Maintenance Free
- Durable and Aesthetic

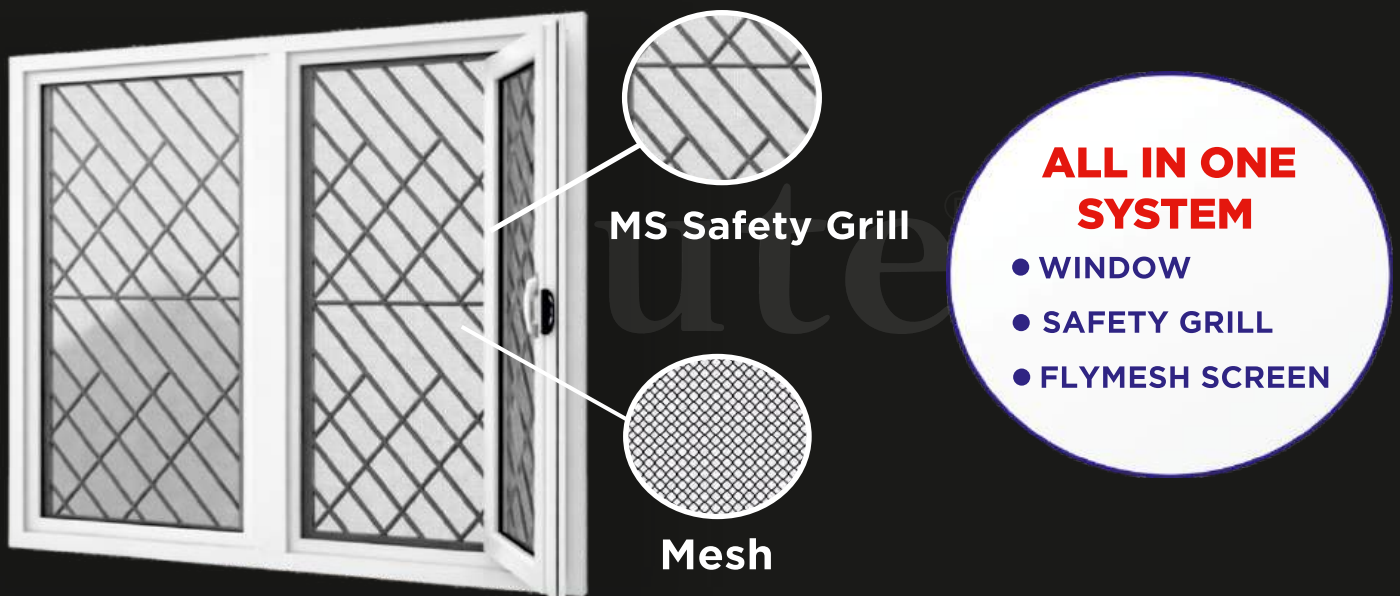

Curated Colour Palette:

Oute[®]

ALL-IN-ONE COMBO WINDOW SYSTEM

ADVANTAGES OF QUTE uPVC WINDOWS WITH INBUILT GRILL

- **SAVE SPACE**
- **BUILDING WEIGHT IS REDUCED**
- **NO NEED OF SCAFFOLDING SEPARATELY FOR GRILL FIXING**
- **NO EXTRA CIVIL WORK**
- **QUICK AND EASY INSTALLATION.**
- **MUCH MORE SAFETY THAN TRADITIONAL WINDOWS AS IT IS DIFFICULT TO CUT BOTH GRILL AND uPVC FRAME.**
- **INDIRECTLY COST CAN BE SAVE IN PROJECT.**

A COMPLETE SYSTEM

Multi-point locking: Superior home security.

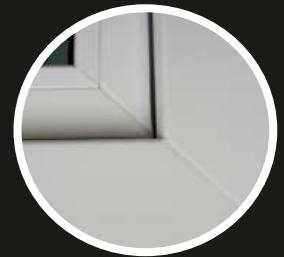

Friction stay: Controlled, safe opening.

uPVC OPENABLE WINDOWS

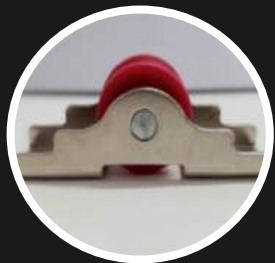

TPE gaskets: Superior airtight sealing.

Fusion welded Joints: 100% leak-proof corners.

Qute®

Sliding roller: Effortless, smooth glide.

Steel reinforcement: Maximum structural strength.

uPVC SLIDING WINDOWS

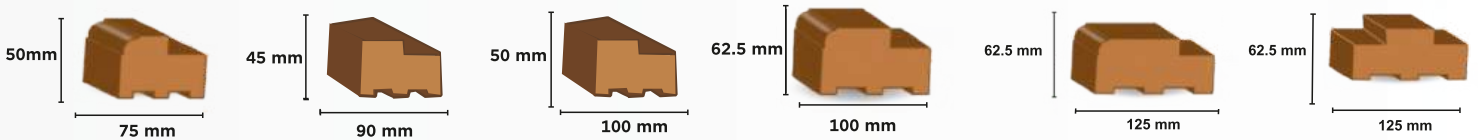

Aluminum Rails: Wear Resistance - Prevents track erosion.

Drain holes: Effective water drainage

THE ORIGINAL WPC DOORS
